Debates for Future
Youth and Pandemic: how to build a post-crisis world
Series of virtual forums organized by
Policy and Citizens Observatory:digitalization, migration, climate

Policy and Citizens' Observatory

in cooperation with DETECT project and CERMES

Youth as digital citizens:
before, during and after the pandemic

June 10, 5pm-6.30pm CET (18-19.30 Bg time)

Join the debate: https://sciencespo.zoom.us/j/97701810197

The pandemic enabled the massification of the new digital world: e-learning, e-government, e-commerce, e-culture, but also digital inequalities, more fake news and conspiracies, strengthening of authoritarian tendencies. Did the increased use of digital technologies empower digital citizens?

The debate will focus on three major topics:

- Digital citizens for a better future: what does the youth want to change in the previous 'normal' and what is the new post-pandemic world it aspires to?

- E-teaching & e-learning: digital school & university – the dream of the digital natives or an imperfect version of a true education?

- Digital activism –how to get mobilized during lockdown and what are the causes that inspire the (post)pandemic generation?

Moderator: **Vanina Ninova**, Policy and Citizens Observatory

Speaker: **Alexandra Mircheva**, co-founder of Zone 21 - skills development hub; expert in the field of youth participation, education and training

Discussants: **Ivaylo Dinev**, **Vanessa Andonova** and **Katerina Zaharieva**

Discussants DETECT: **Evelina Staykova and Stefani Bogomilova**

Registration
Please, register at:
https://docs.google.com/forms/d/1fsH90Oo4KoZY1KDiyW1OMxt7DLhTd19WSejkznAamPE/edit

- You could ask your questions before the debate (during registration) and during the discussions.

Joining the session:
https://sciencespo.zoom.us/j/97701810197
- In order to avoid technical issues, we kindly ask you to connect 5 to 10 minutes before the start of the debate

After the Conference
- The sessions will be transformed into podcasts. You will receive a link to the podcasts once available, that you are of course free to disseminate in your network.

By completing this form, I agree that the webinar will be recorded and my personal data will be stored for the purposes of its organization, in accordance with Regulation (EU) 2016/679
